

Hudson County C.C. Wayfinding Maps

Hudson County Community College Jersey City, NJ

Whitehouse & Company, an established New York City design firm, was contracted by Hudson County Community College to provide a series of five location maps intended to direct students and visitors. The solution, a combination of freestanding and wall mounted elements, provides not only wayfinding direction but a cohesive image for an urban institution occupying multiple buildings.

Hudson County Community College was founded 1974 and has a for-credit enrollment of 6,000 students and a substantial not-for-credit enrollment. The curricula include both transfer and career programs. HCCC has come to be recognized as a valuable community asset where residents can receive a high quality education, at an affordable price, close to home.
